## **DETAILED ACTION**

### ***Request for Continued Examination***

1. The request filed on November 28, 2006 for a Request for Continued Examination (RCE) under 37 CFR 1.53(d) based on parent Application No. 10656313 is acceptable and a RCE has been established. An action on the RCE follows. Claims 1-5, 17, 21-23 and 40-42 are pending.

### ***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 1-5, 17, 21-23 and 40-42 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Art Unit: 1713

In light of MPEP 2173.05(i), any claim containing a negative limitation which does not have basis in the original disclosure should be rejected under 35 U.S.C. 112, first paragraph as failing to comply with the written description requirement. Since applicants' original disclosure does not have any basis for the negative limitation "does not contain a polymeric molding compound" as claimed in claim 1, the rejection set forth under 35 U.S.C. 112, first paragraph is proper.

### ***Claim Rejections - 35 USC § 103***

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining

obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.
4. Considering objective evidence present in the application indicating obviousness or nonobviousness.

5. Claims 1, 23, 42 are rejected under 35 U.S.C. 103(a) as being unpatentable over Weil et al. (US Pat. 5,578,666) in view of Langford (US Pub. 2001/0011112), for the reasons adequately set forth from paragraph 3 of the office action of July 28, 2006.

6. Claims 2-5 are rejected under 35 U.S.C. 103(a) as being unpatentable over Weil et al. (US Pat. 5,578,666) in view of Langford (US Pub. 2001/0011112) as applied to claim 1 above, and further in view of Jeneweine et al. (US Pat. 6,365,071), for the reasons adequately set forth from paragraph 4 of the office action of July 28, 2006.

7. Claims 21-22 and 40-41 are rejected under 35 U.S.C. 103(a) as being unpatentable over Weil et al. (US Pat. 5,578,666) in view of Langford (US Pub. 2001/0011112) as applied to claim 1 above, and further in view of Gareiss et al. (US Pat. 6,084,012), for the reasons adequately set forth from paragraph 5 of the office action of July 28, 2006.

### ***Response to Arguments***

8. Applicant's arguments filed October 30, 2006 have been fully considered but they are not persuasive. Applicants argue that the amended claim 1 now contains a new

Art Unit: 1713

feature "the pulverulent flame-retardant composition does not contain a polymeric molding compound." However, in view of the 112 rejection set forth, Claims 1-5, 17, 21-23 and 40-42 stand rejected for the reasons adequately set forth above.
